

POTTY TRAINING FOR GROWN-UPS:

Know Before You Go

Parents, you did a great job potty training your kids... but how do your skills measure up?

91% of adults say they **know what's flushable** yet **53%** admit they've **flushed something they shouldn't**.

BABY WIPES
Strong yet gentle on baby's skin but **NOT FOR FLUSHING!**

PAPER TOWELS
Always ready for cleaning, and great for hand drying but made much stronger than toilet paper and **SHOULDN'T BE FLUSHED.**

PERIOD PRODUCTS
These important hygiene products, including tampons, are **MEANT FOR THE TRASH AND NOT THE TOILET.**

SURFACE CLEANING WIPES
Handy for tackling household chores but made with long fibers that **DON'T BREAK DOWN IN WATER.**

#FLUSHSMART TIPS

- 1 Always look for the "Do Not Flush" symbol on non-flushable wipes packaging.
- 2 Keep a trash can in your bathroom close to the toilet.
- 3 When in doubt, throw it out!
- 4 Share your #FlushSmart skills with your friends & family.
