

Maze Challenge

Name: _____

1. Trace a clear path through the drain pipes to the sewer below.
2. Then mark each clog with an **X** to blast it away!

Can you defeat the
Clog Monster?

Clogs in pipes can cause sewage backups (yuck!) and lead to pollution in our rivers and streams.

DO NOT FLUSH

Stop clogs before they happen!
Look for the Do Not Flush symbol and never flush disposable wipes or trash down the toilet.
